11th April 2011

Dear Colleague,

Re: Shipping Costs

Please note that when you submit samples to the Reference Laboratories at IAH-Pirbright for diagnostic testing each Reference Laboratory will test up to 50 samples per country per year free of charge, however you are reminded that the cost of shipping the samples is your responsibility and cannot be covered by the Reference Laboratories. This includes the cost of clearing samples through UK customs and their onward transit to IAH Pirbright. Wherever possible we will keep this cost to a minimum by using our drivers, although on some occasions it will be necessary to use couriers. Please be aware that IAH will forward any costs incurred on to you in a formal invoice.

If you have any queries or would like estimated costs please contact Elizabeth Wilson at elizabeth.wilson@bbsrc.rc.uk.

Yours faithfully,

Dr. Chris Oura
Head: Non-Vesicular Reference Laboratory
IAH Pirbright

Dr. Jef Hammond
Head: Vesicular Reference Laboratory
IAH Pirbright
